

The Faith Committee has been busy preparing our new and improved Prayer Garden. This garden is perfect for prayer and reflection and we hope that the children enjoy coming here for some quiet time.

Let your Worship Group representatives know if you have any ideas of things you would like to have inside our Prayer Garden to help you to pray and reflect.

PHOTO HERE SOON!

As soon as Spring returns, our Prayer Garden will be due to have a new Bible themed sensory path! We were inspired by the different stories and lessons in the Bible that we learn about in our RE lessons and in Collective Worship. Our sensory path lets you imagine yourself in different places along the big story of the Bible and guides you all the way through the path.

A half barrel has been installed as a water feature. Water is symbolic in many world faiths, our Faith Committee also wanted water in the garden for attracting wildlife.

We have a local artist visiting in July to complete an installation with the children so look out for more exciting updates on this area coming soon!
